DETAILED ACTION

Response to Amendment

The amendment filed 13 February 2007 has amended claim 57 to correct its dependency. Examiner's rejection under 35 U.S.C. 112 is withdrawn. Independent claims 1, 45, 61, and 62 now recite claim language that power converters have a capacity to receive power at a level above that of a primary port. Dependent claims 24, 51, 54, and 55 have been amended to provide terminology agreement with the amended independent claims.

Allowable Subject Matter

Claims 1, 13-17, 20-22, 24, 26, 28, 45-57, and 59-63 allowed.

Claims 59 and 60 were previously indicated as allowable, and claims 28 and 57 were previously indicated as containing allowable subject matter.

The following is an examiner's statement of reasons for allowance: the closest prior art, Henze (US 5,926,004) does not disclose, in a charging system for a plurality of batteries, power converters with a capacity to receive power from primary power ports at a level above the primary power ports' rating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
